Oh god... there was a YEAR in there where KARI was glued to YouTube and DR PIMPLE POPPER.... ooh!!! Look at this one! So MUCH PUS!! Everyday... I'd ask "whatcha watching? Aah!!" "My new favorite!!! Pilar cysts!! Do you think you could get one?" She asked hopefully...

I hope I don't get one I said. But you might she said oh look at it look at it! Look at that texture what is that Stuff in there. Is it rubbery that looks really goopy.what causes them?

I said I'm not sure but I think it's Anne malfunctioning sebaceous gland. In other words it's a sweat gland that is turned inward instead of outward. That's all it is? So you could actually get one? I don't want one carry.

Oh come on you're no fun.

She talked about this for days. she was modestly obsessed about it… she kept insinuating that there might be a way that I could get one. And I began to get paranoid. And she began to feed into it. One night I was sleeping and she was having a little something to eat and I felt something on my back and I looked and she was looking rather suspicious I turned my head as far as I could. Quote Carrie is there putting on my back?

She said Oh yeah I think I got a little bit on you period

. I said you were rubbing it on me period

. She said no I was trying to get it off of you.

I don't think I'm going to get a pilar cyst from pudding on my back carry.

Well you might.

Please don't try to give me a pilar assist Carrie.

It's not like I'm asking a lot it's just like you said a sebaceous gland that is malfunctioning.

So I'm going to have to worry about you trying to give me one?

No that was just this time.

But it wasn't.

I know she was just being silly but the next night was bacon grease.

I said really? And she looked scared and excited at the same time because of course I was supposed to catch her in the act.

Carrie if I do get up I'll arcbest you are not going to have one thing to do with it you won't even be in the hospital when I get it taken care of period

. That is so mean Sean you know how much that would mean to me.

If you actually succeed in giving me one no. No you won’t have nothing to do with it it will be my pile arcbest and I will enjoy it all to myself.

That is the meanest thing you’ve ever said to me Sean.

OK good well now we can now we know what you are going to tell the grandchildren when you want to say something terrible about me and the grandchildren will be like are you crazy grandma? Why did you want to give grandpa assist are cysts good things? I didn’t think they were good things grandma? Explain that to your grandkids’cause I sure will.

Once and for all carry I don’t want and I’m not going to get a pile or assist.

Oh, you don’t know what you want.
